

A photograph of a paved road stretching into the distance through a rural landscape. The road is flanked by fields of tall, dry grass and small trees in the background under a sky filled with scattered clouds.

A Local Government Journey with QGIS

The City of Canning Story

About the City of Canning

- Local Government in inner Perth Metro Area.
- Approx:
 - Area: 65Km².
 - Population: 93,000.
 - 10Km from Perth CBD.

About me

- Strategic Planner working at the City of Canning.
- Urban planning background.
- Use QGIS for creating maps and analysing data.
- Passion for Free and Open Source Software.

First Contact (2012)

- House Study with Curtin University.
- QGIS MCA and Scenario plugin.
- Informed Local Housing Strategy.
- Written for QGIS 1.X series.

The screenshot displays the 'Market / Redevelopment Tool' tab of the First Contact software. The interface is organized into several sections:

- Property Attributes**: Includes sliders for RPI, Age of dwelling, Area, Frontage, Development efficiency, and Lot squareness, each ranging from 0 to 10.
- Zoning / Capacity Tool**: Includes sliders for Zoning, Strata titled, Vacant land, LGA owned, Extra land, and Sensitive area, each ranging from 0 to 10.
- Demographics**: Includes sliders for Age 20 - 29 quartile, Age 30 - 54 quartile, Age 55 - 74 quartile, Age 75+ quartile, and SEIFA quartile, each ranging from 0 to 10.
- Location**: Includes sliders for Dist to primary centre, Dist to neighbourhood centre, Dist to local centre, Dist to train station, Dist to bus stop, Dist to main road, Dist to park, Dist to primary school, Dist to secondary school, Dist to tertiary school, Recent nearby demolitions, Relative density, Net increase, and PTAL, each ranging from 0 to 10.

At the bottom of the interface, there are summary statistics: "Variables selected: 0" and "Total Points allocated: 0". Below these are two buttons: "Reset Values" and "Run MCE".

Turbulent Times (2014-2015)

- GIS Officer left the City.
- For some time no formal in house GIS resources.
- Contracting GIS out for some time.
- Planner with QGIS knowledge.
- New Leader GIS started in late 2015.

The Great Migration (2016)

- Staff on full day training course.
- Gradual change over.
- QGIS now default GIS software.

Greener Pastures (2016-2018)

QGIS used for

- Local Planning Strategy Map
- Local Planning Scheme Map
- Scheme Amendment Maps
- Structure Plan Maps

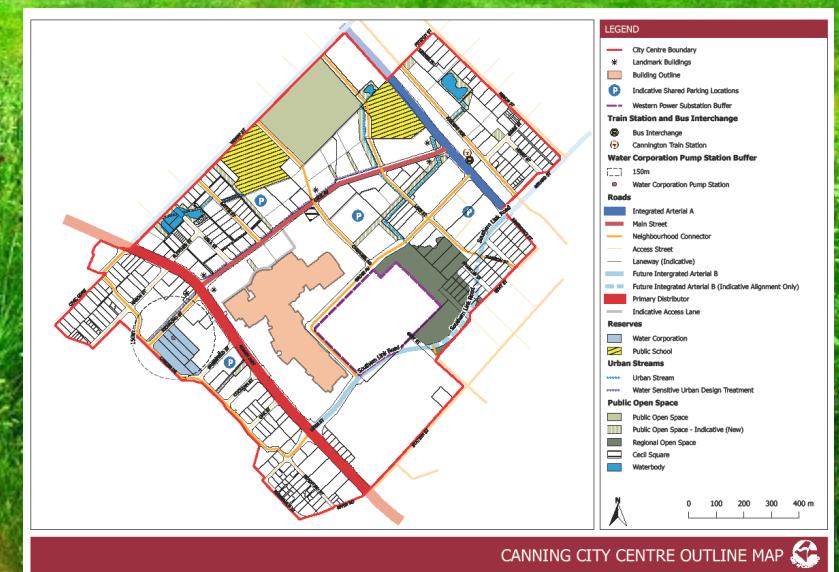

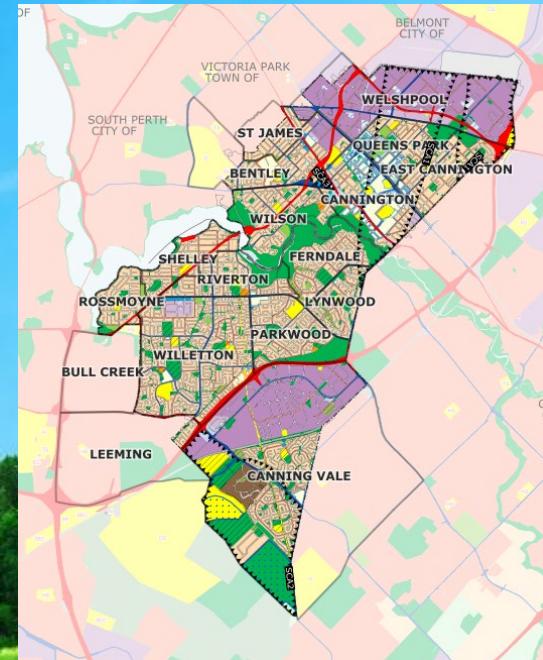

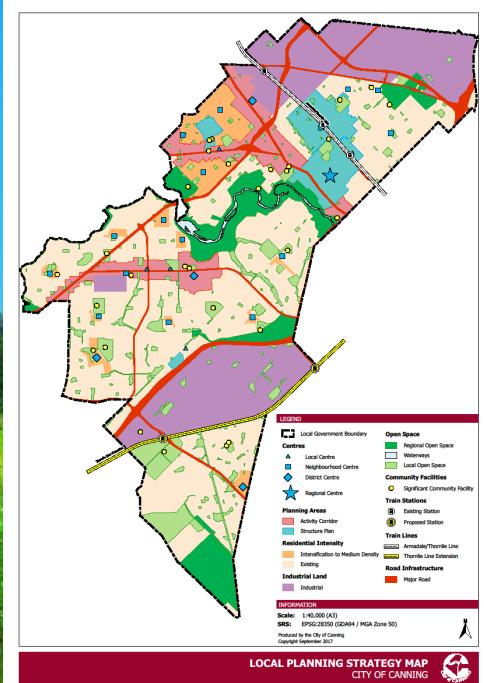

Image by Free-Photos from Pixabay

Giving Back (2017-2018)

- Bronze sponsor/sustaining member since 2018.
- Giving back to the community.
- Recognises value of QGIS.
- Supportive GIS leader and IT manager made it possible.

City of Canning

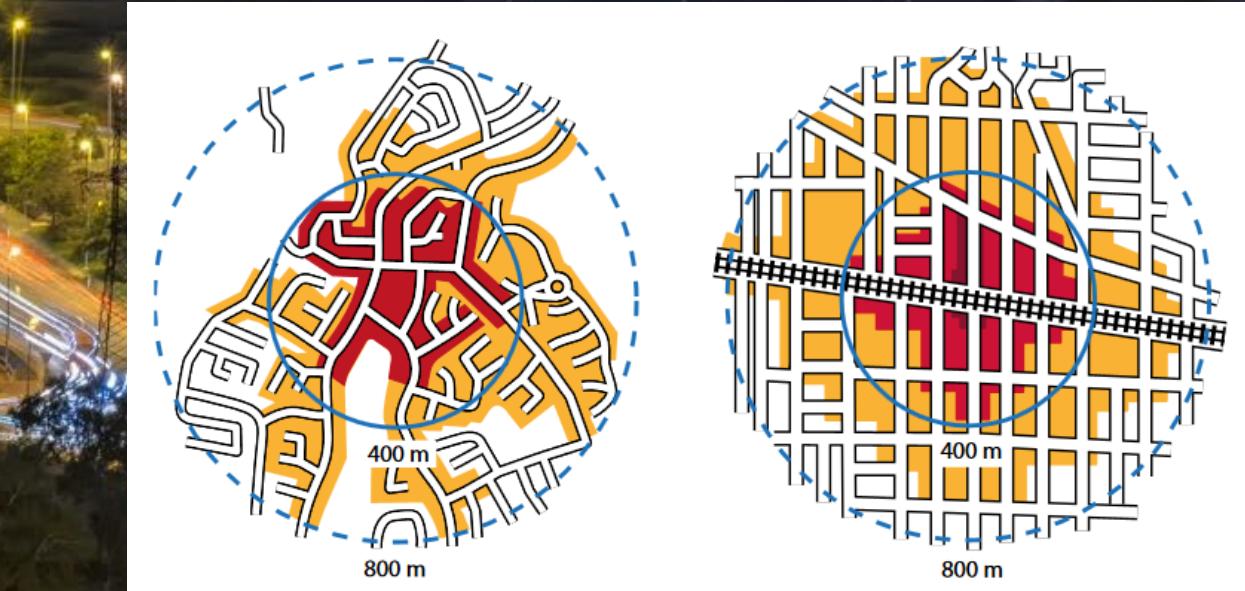

Australia

Membership level: Small

(01 January 2020 - 31 December 2020)

Network Analysis (2018-2020)

- Planning principles refer to walkable catchments.
- Great in theory but not easy for planners to calculate walkable catchments.
- Impacts ability to make informed decisions and recommendations.

Source: Liveable Neighbourhoods (Draft 2015)

Network Analysis (2018-2020)

- Old way – measure manually.
- Desire to do walkable catchments accurately in GIS.
- Initial look at QGIS 2.18.

Then QGIS 3.0 was released.

Network Analysis (2018-2020)

- Network analysis was now easy.
- Example Project – Review of Pedestrian Access Ways.

DENNY

Network Analysis (2018-2020)

- Measured distance from:
 - Shopping centres
 - Parks
 - Playgrounds
 - Schools
 - Train stations
 - Bus stops
- With and without PAW in place.
- Compare the difference
 - Red Line without PAW
 - Blue Line with PAW

The screenshot shows a user interface for editing items, likely in a design or document creation application. At the top is a toolbar with various icons for file operations, selection, and modification. Below the toolbar is a horizontal ruler with numerical markings from 20 to 260. To the right of the ruler is a vertical stack of panels.

- Undo History:** A panel titled "Undo History" containing the message "<empty>".
- Items:** A panel titled "Items" which is currently active. It lists recent actions:
 - Move Items
 - Change Table Contents
 - Change Table Contents
- Layout:** A panel titled "Layout" with tabs for "Item Properties", "Guides", and "Atlas".
- Item Properties:** A panel titled "Item Properties" with tabs for "Layout", "Item Properties", "Guides", and "Atlas".
- Table:** A panel titled "Table" containing the following settings:
 - Main Properties:** An "Edit Table..." button.
 - Appearance:** Options include:
 - Show empty rows
 - Cell margins: 1.00 mm
 - Background color: A color picker and "Advanced Customization..." button.
 - Oversized text: Truncate text dropdown.
 - Show Grid:** Options include:
 - Line width: 0.50 mm
 - Color: A color picker.
 - Draw horizontal lines
 - Draw vertical lines

The Third Dimension (2020)

- QGIS to Blender workflow being explored.
- Accuracy of GIS with photorealism of 3D software.

Summing up

- QGIS has significantly improved our ability to make evidence based decisions.
- Improvements in QGIS over time have made it more accessible and powerful.
- Options available to fund development and improve QGIS.
- Giving back to the QGIS community is important for the growth of the project.
